

## ASSIGNMENT 4

# The **User-friendly** Classroom: Introductions

---

**Instructions:** Watch the *Introductions* video and consider the following expectations undergraduates listed in *The First Day* video:

<b>approachability</b>	<b>enthusiasm</b>	<b>knowledge</b>
<b>confidence</b>	<b>preparation</b>	<b>organization</b>

Do Shawn and Marzieh meet those expectations? If they do, what specific words and actions do they use to show those qualities? If they don't, what are they missing? Give specific examples.

How would you introduce yourself to a class on the first day? Is there anything you would do differently to make your class more user-friendly?
