

## ASSIGNMENT 6

# The **User-friendly** Classroom: Evaluate Yourself

---

**Instructions:** Watch the recording you made of your first day introduction. Assess your performance based on the following:

<b>approachability</b>	<b>enthusiasm</b>	<b>knowledge</b>
<b>confidence</b>	<b>preparation</b>	<b>organization</b>

Do you meet those expectations? If you do, what specific words and actions do you use to show those qualities? If you don't, what is missing? Give specific examples.

If you did this assignment again, would you change anything to make your class more user-friendly? What would you do differently?
