QUARTERLY PROGRESS REPORT No. 52

January 15, 1959

Submitted by: J. B. Wiesner  
G. G. Harvey  
H. J. Zimmermann

## Introduction

This report, the fifty-second in a series of quarterly progress reports issued by the Research Laboratory of Electronics, contains a review of the research activities of the Laboratory for the three-month period ending November 30, 1958. Since this is a preliminary report, no results should be considered final.

Following our custom of the past several years, in this issue we preface the report of each research group with a statement of the objectives of the group. These summaries of our aims are presented in an effort to give perspective to the detailed reports of this and ensuing quarters.
