

Assignment 4
Due Session 22

Your task in this paper is to analyze how the “street-level-bureaucrats” you have studied in your project shape policy as they implement it. To do this successfully you should: 1) Identify and describe where and how discretion comes into play in the SLBs’ work; 2) Analyze the role that their discretion plays in getting the policy to work in practice; 3) Draw conclusions about the character and significance of SLBs contributions to achieving policy goals in the arena you studied.
